

MTPS PHOTOGRAPHY PROTOCOL:

At Mount Terry Public School, our protocol regarding photography is to maintain a safe learning environment for all students that extends into our community and external activities and/or events. We kindly ask that parent/carers record and capture images of only their child/ren and if other students or staff are photographed (within backgrounds for example) please refrain from publishing these images/recordings on social media and other internet platforms. Publishing any images of students, particularly where parental or guardian consent has not been obtained, can contravene *Permission to Publish* guidelines and personal choices of families/carers and staff at Mount Terry Public School.
